

A. In the Specification:

On page 1, the first full paragraph starting on line 9, “In the Specification and Claims... to form the wash liquor”, please delete that paragraph and substitute the following one:

In the Specification and Claims, the terms “substantially non-reactive” or “substantially inert” when used to describe a component of a wash liquor or washing fluid, means a non-solvent, non-detersive fluid that under ordinary or normal washing conditions, e.g. at pressures of -10 ± 1 to 50 atmospheres and temperatures of from about 10° to about 45° C, does not appreciably react with the fibers of the fabric load being cleaned, the stains and soils on the fabric load, or the washing additives combined with the component to form the wash liquor.
